

JERICSON PAJOTAL

Customer Service Professional Transitioning to Amazon PPC

Hagonoy, Taguig, Philippines | jericson.pajotal21@gmail.com | 0976 237 0279

PROFILE

I have more than 4 years of experience in technical support and customer service. In this work, I solved problems, found root causes, and helped customers in a clear and organized way. I am now moving into Amazon PPC, and I've built my knowledge through self-directed practice scenarios and AI-guided learning. I am looking for a Junior Amazon PPC role where I can use my problem-solving skills and my growing PPC knowledge to help a business grow.

AMAZON PPC KNOWLEDGE (SELF-TAUGHT)

- Amazon PPC Fundamentals
- Search Term Analysis
- Keyword Research
- Campaign Performance Basics
- Shopper Intent Analysis

ANALYTICAL SKILLS

- Data Analysis
- Problem Solving
- Root Cause Analysis

TOOLS

- Google Sheets
- Keepa
- ChatGPT (used for PPC concept research, brainstorming keyword ideas, and practice scenarios)
- Claude (used for PPC practice and learning, writing refinement, and identifying flaws in the process)

SELF-DIRECTED AMAZON PPC TRAINING

I built my Amazon PPC knowledge mainly through self-directed practice — working through realistic scenarios covering search term analysis, campaign performance review, and PPC decision-making, using AI tools like ChatGPT and Claude to guide my learning and check my reasoning.

- Practiced identifying wasteful and low-performing keywords using sample search term data
- Learned how to tell the difference between good and bad keyword performance using ACOS and other metrics
- Practiced shopper intent analysis to check if a keyword matches what a real customer is searching for
- Learned the basics of Auto and Manual campaigns, keyword match types, and campaign structure
- Completed scenario-based practice exercises focused on making real PPC decisions, not just theory

I also briefly took the ASVA Elite program, which focuses on Amazon product research (Seller Central, Helium 10, sourcing products for clients) rather than PPC. I didn't complete it since it wasn't a match for the PPC path I wanted, but it gave me useful exposure to the broader Amazon ecosystem.

PROFESSIONAL EXPERIENCE

Technical Support Representative

Dexcom Inc. — Healthcare Account, Taguig City | Feb 2023 – Mar 2026

- Helped patients and healthcare users with technical problems on medical devices through phone calls.
- Found the root cause of issues and guided users step by step to fix the problem.
- Explained technical information in a simple and clear way so users could understand and resolve concerns.
- Followed healthcare data privacy and security rules when handling patient information.
- Recorded all issues, investigations, and solutions clearly for accurate case tracking.
- Handled difficult customer concerns by gathering information and finding the right solution.
- Gave feedback on repeated issues to help improve support processes and service quality.

Customer Service Representative (Chat Support)

Sitel Philippines (now Foundever), Pasig City | Nov 2021 – Jan 2023

- Helped customers through live chat with internet service questions and account concerns.
- Helped customers move their internet service to a new address by checking availability and requirements.
- Recommended internet plans and offers based on customer needs and location.
- Managed several live chats at the same time while keeping good service quality and accuracy.
- Recorded customer requests and solutions accurately in internal systems.

EDUCATION

AMA Computer College — Makati

Bachelor of Science in Information Technology (Undergraduate)
